Astonishing Success.

It is the duty of every person who has used Booschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case and we consider it the duty of all drugists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all drugists and dealers in the United States and Canada.

NO "GAZETTE" ON MEMORIAL DAY.

Monday being a legal holiday, and the GAZETTE employees desiring to join with others in doing honor to the soldier dead, no newspaper will be issued from this office on that day.

There seems to be an effort to boom real estate all over the Coast. Every particular section is setting forth its advantages in regard to soil, climate, etc. People who are reading these descriptions are, no doubt, waiting to hear of some district that is both prolific and phenomenal in its productions. That class of people ought to migrate to Arizona. There they can have all the novelty and exciting phenomena they want. Arizona is just now coming out lively. Real estate there is moving and the inhabitants of certain portions of it are doing the same thing. That is the kind of a country to go to. Every acre of it will produce a heavy crop of good, old-fashioned earthquakes (the best in the market) and that, too, without irrigation. There is no clearing whatever to be done. They do all that. Raising scalps was formerly the proud boast of that Territory, but the new power now in use raises everything. Go there when you require the assistance of a surveyor to tell you where you are every morning and also to aid you in separating your farm from others that have been thrown promiscuously together by a friendly earthquake while you were asleep. That's the place to locate a home. A human being likes a change and the southern country is the place to find it.

Speaking of the complicated state of affairs in France, of which mention was made in these columns yesterday, the New York Morning Journal of the 22d instant says: "Another shuffle of the cards in France, and all about beer. The people of that lively nation are ready to spend several hundred millions a year on their army, but they do not intend to pay any more for their beer on account of it; and so when the Government does not entirely agree with them on the subject of taxed beer their representatives vote the said Government out of office and they make another. This time it is not so clear what sort of a Government they will make. Goblet, the Minister just fired out, let Boulanger and the army alone. It would be wise for any other Minister to do the same thing. In that case this new Ministerial shuffle may lead to a revolution. It is not necessary for France to fight Germany now—but the French war party will fight the other party rather than give up Boulanger."

For many years the question of American trade upon the ocean has been agitated, but no active steps have yet been taken to insure the building up of American shipping. In alluding to this matter the *Atlanta* says: "Business men and statesmen in this country are discussing measures for restoration of our primacy of the seas. A country with so long a coast line, so rich in fine harbors, and with such a volume of commerce, should not depend upon other nations for its marine transportation nor for its able seamen and sailing-masters. Navigation should be one of our greatest industries, and steps should be taken not merely to renew the extensive building of ships but to rouse American interest and pride in seagoing. It is quite remarkable that we have schools in which men are taught to build steam engines and to operate them, and that agricultural, medical and law schools are endowed in nearly every State, while nowhere has public interest been strong enough to found a school of navigation."

—Hong Di was brought before Justice Frazier, at Colusa, Cal., to-day, and his preliminary examination on a charge of murdering Mrs. Billou was set for Friday, June 3.

PRESS DISPATCHES TO THE GAZETTE

Heavy Loss by Michigan Forest Fires.

CHICAGO, May 28.

A dispatch from Marquette says the forest fires which have devastated the northern peninsula of Michigan during the last fortnight, have, by careful estimate, caused the total loss of \$7,000,000, including \$2,500,000, caused by the destruction of Lake Linden. Only eight lives are positively known to have been lost. Great destruction prevails throughout the burnt district.

A Brutal Murder.

St. Paul, May 27.

The Pioneer Press has news of a brutal murder near Fergus Falls, where Miss Lillie Field was to-day found in a hog pen with her throat cut and disembowled. A Scandinavian hired man, Nels Olson Holung, is supposed to be the murderer, as she was left alone with him early this morning, and he is missing. The neighbors are out in force looking for him, and the police of the twin cities have been notified.

An Unfounded Report.

LITTLE ROCK, Ark., May 28.

The report that the Governor of Arkansas has issued a requisition for the arrest of Wm. Kissane, telegraphed to several papers last night, is untrue.

Death on the Rail.

PITTSBURG, May 28.

The latest reports from the scene of the accident at Horseshoe Bend, on the Pennsylvania road last night, state that six were killed and eight injured. Four were killed outright and others have since died.

A Lockout Settled.

PHILADELPHIA, May 28.

The long lockout of clothing cutters by the Philadelphia clothing exchange was settled yesterday to the satisfaction of both parties concerned. About 600 men were concerned.

WESTERN DISPATCHES

A Fearful Accident.

OGDEN, May 28.

To-day at the horse races at Hot Springs, a few miles from Ogden, towards the close of the races this afternoon, a horse ridden by a little boy named Chandler, whose parents reside in this city, after passing the winning post ran into a farm wagon standing by. The wagon brake was set and the boy was caught on the foot lever, which projects a few inches. The iron penetrated his head and the horse continued its career leaving the boy dangling in mid air. Absolom like. He was quickly removed from his fearful position by bystanders. The consideration is said to be \$7,500."

State Fair Matters.

SAN DIEGO, May 28.

S. H. Moll, the cigar dealer, arrested yesterday at the instance of U. S. District Attorney Brooks, for the alleged smuggling of \$200 worth of Mexican cigars in January last, was held to answer this morning before the U. S. Circuit Court and his bond fixed at \$500. No more arrests have been made.

Salt Pork and Brandy.

SAN FRANCISCO, May 27.

The Customs officers this afternoon seized the German bark Nautilus, recently from Hamburg. The vessel

was searched and \$3,000 worth of Havana cigars and French brandy found.

The brandy was contained in boxes labelled "salt pork." The search will be continued to-morrow, when a number of arrests will probably be made.

It is stated that three more alleged smugglers have been arrested. Who

they are has not yet been revealed.

Tropical Weather at San Francisco.

SAN FRANCISCO, May 28.

To-day was the warmest day experienced in San Francisco for 15 years. Temperature 96-9-10. Hot winds in Solano county are damaging the wheat.

FOREIGN DISPATCHES

Another Mine Horror.

GLASGOW, May 28.

A terrible explosion has occurred in the Uiston coal pit, at Blantyre village in Lanarkshire, eight miles from this city. Two hundred and twenty miners are entombed in the pit, and it is feared that all have perished. The shaft is blocked with debris caused by the explosion.

Further particulars of the explosion in the Uiston pit show that the number of men entombed is less than at first reported. Forty-five miners who

were imprisoned in the upper seam of the pit were rescued, but one died after being brought to the surface. The others are suffering, however, from the effect of the shock. Access to the lowest seams where seventy-five men are confined, is found to be blocked by debris, tumbled down by the explosion. It was in this seam that the explosion occurred, and it is not believed that any of the men down there can be rescued alive. It is even thought that they are all dead now. There are seventy other men still imprisoned in the middle seam. Hopes are entertained of saving most of these. Volunteers working for their rescue can hear them calling for help. Uiston pit is situated in the most fiery of the coal districts in Scotland. As soon as the fact of the explosion became known, miners from all the neighboring collieries hurried to the scene to help to work for the rescue. The pit head has been surrounded ever since the disaster by a large crowd of weeping women and children. Five dead bodies have already been taken out of the mine.

Irish Tenants Defend Themselves

DUBLIN, May 27.

Evictions are being carried on at Bodkye, attended by exciting scenes. To-day a fight occurred. The police charged the people with batons. The Sheriff in command was seized with epilepsy. A truce was had at once, and was used by the people in strengthening their defenses. The persons to be evicted are all barricaded in their homes, and have plenty of friends assisting them to resist the police. It is believed severe fighting, and even bloodshed is inevitable.

The Red Flag in Europe.

BRUSSELS, May 28.

The Socialists have taken advantage of the strikes in Belgium to make demonstrations in various places. They have held several meetings at which violent speeches were made. The red flag was displayed and the Marseillaise sung.

TELEGRAPHIC BREVITIES.

—Bar silver 95%.

—Grant and Lockroy refuse to enter Rouvier's new French Cabinet unless Boulanger is retained as Secretary of War.

—Cardinal Gibbons will sail from Dublin for New York on the steamer Umbria to-morrow.

—The boiler of a Natches, Miss., cotton factory exploded this morning, killing and wounding many of the employees.

BREVITIES.

Local and General News.

Surveyor General Irish is moving his office from the *Journal* building to the First National Bank building.

It is probable that the Donner Lake excursion spoken of in these columns a few days ago will be given by the Central Pacific Railroad Company next Saturday.

The Reese River *Reveille* notes the development of another new body of ore in the Ophir mine, Nye county. The vein is four feet wide and assays range from \$50 to \$200 per ton.

The Santiago mill will start crushing ore from the Belcher mine next week, the output from which mine will be increased to 160 tons per day instead of 40 tons as heretofore.

Arrangements have been made for the teachers and children of the primary school to ride in the procession on Memorial Day. Wagons will be in readiness for them at 12:30 o'clock at the school house, next to the Methodist Church.

Land in and contiguous to Winnemucca is evidently appreciating in value. Says the *Silver State* of yesterday: "George Berk has purchased of R. W. Lewis 23 acres of unimproved land adjoining town and fronting the river. The consideration is said to be \$7,500."

State Fair Matters.

The State Board of Agriculture met yesterday afternoon when

President Powning was, by a unanimous vote, directed to conclude the purchase of the 80 acres of land im-

mediately northeast of town from Messrs. Foley, Russel & Bradley for the sum of \$14,000—\$5,000 to be paid in cash, the balance in two years' time with interest at the rate of 8 per cent, per annum.

Secretary Stoddard was directed to prepare and issue a circular to the prominent ladies and gentlemen of the several counties, with a view of enlisting their best efforts for the Fair of 1887.

The Board also ordered a circular to the several Boards of Commissioners, urging their active co-operation in the matter of county ex-

hibits.

Two Million Restored.

Brandreth's Pills are a certain cure for every disease; they purify the blood, which in its turn makes a pure, healthy body. During the last fifty years they have restored to perfect health and enjoyment two millions of persons. The secret of their success is their three-fold effects, invigorating the digestion, stimulating the liver and bowels, and purging away the worn out particles of the body and all seeds of disease. One or two Pills taken every night for a week or two will always cure.

Danced the Melody.

One of the GAZETTE devils attended the masquerade ball last night, and as is usual with a printing office imp, he never missed a dance or neglected to leave with a better hat than he went with. He was enthusiastic in his praises and pronounced it the grandest affair of the season. When questioned as to the time he remained in the hall, he said: "I stayed until they danced the melody."

Dragged to Death.

Says the Silver State of yesterday: Paul S. Gordon, of Jordan Valley, was dragged to death by a runaway team near Baxters last week. A stallion tied behind the buckboard frightened the team, which ran five miles, and when stopped Gordon's lifeless body was fast to the buckboard, mangled in a horrible manner, with nearly all the clothes torn from it.

THE MASQUERADE.

The Children's Ball Given Last Night by Mrs. Alt a Grand Success.

The children's masquerade ball at Armory Hall last night, under the management of Mrs. Alt, was a complete success in every particular, and Mrs. Alt is deserving of the numerous compliments that were bestowed upon her by the many spectators present. The little folks were out in almost every conceivable costume, and all sustained their respective characters becomingly. The contest for the prizes was quite lively, all of which were awarded with impartiality. A little confusion occurred in the distribution of the prizes on account of a slight misunderstanding in writing the cards that were to indicate what the prizes were awarded for. This was satisfactorily adjusted by Mrs. Alt, who announced that a special prize would be given to the best dressed young lady, to whom a prize was to have been awarded, but had been, through the mistake above alluded to, awarded for something else. In the midst of all the bustle attending the preparations for the masquerade the little pupils had not forgotten their estimable teacher, and after the mementoes given by Mrs. Alt had been satisfactorily distributed, that lady was called for and Miss Emma Brown, in a few neat, appropriate and touching remarks, presented her, on behalf of her pupils, a nice set of silver fruit knives. Mrs. Alt returned her thanks for this kind appreciation of esteem, and then, everything being ready, the order for dancing was given, and the pleasure was indulged in with customary vigor until the clock struck two this morning. Below will be found a complete list of those in mask, the characters assumed and the prizes awarded:
